DETAILED ACTION

Allowable Subject Matter

1. Claims 1-58 are allowed.

The following is an examiner's statement of reasons for allowance: In US Patent 6,581,081, Messerly discloses an adaptive filter for efficient computation of wavelet packet tress comprising a synthesis section 515 comprising a filter bank $G(z)$ a plurality of inputs and an output, each input receiving a corresponding one of a plurality of symbols and the output asserting an orthogonal wavelet signal (fig. 5 col. 9 lines 4-11). However, the prior art of record fails to teach or make obvious the steps of or means for **"each symbol of the supersymbol comprises a selected one of a predetermined symbol set of a selected modulation scheme and wherein the OWDM signal comprises a linear combination of weighted OWDM pulses, each weighted OWDM pulse being representative of a corresponding symbol of the supersymbol"**, when such symbol is considered within the specific structure of the device recited in claim 1. However, the prior art of record fails to teach or make obvious the steps of or means for **"a second series of multipliers, each having a first input coupled to an output of a corresponding one of the first series of multipliers, a second input that receives a corresponding OWDM pulse of a first family of doubly orthonormal OWDM pulses and an output"**, when such multipliers are considered within the specific structure of the device recited in claim 27. However, the prior art of record fails to teach or make obvious the steps of or means for **"a first memory that stores a first set of OWSS pulses comprising a plurality of OWSS pulse vectors, each OWSS pulse vector**

comprising a combination of a selected code vector of a first set of orthogonal code vectors and a first family of doubly orthonormal OWDM pulses", when such memory is considered within the specific structure of the device recited in claim 46.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
